Wheat a Shade Stronger, with a Feeling that the Prices Are Low Enough.

An Active Shipping Demand for Corn, with Firmer Figures-Oats Quiet and Steady-Pork Weak, with Prices Favoring Bayers.

#### MONEY, STOCKS AND BONDS.

A Fairly Active and Generally Strong Market with Few Marked Changes. NEW YORK, May 3 .- Money on call easy at 224 per cent., the last loan being made at 2, and closing offered at 2.

Prime mercantile paper 34 254 per cent. Sterling exchange firm at \$4.87 for sixty-day

bills, and \$4.88% for demand. The total sales of stocks to-day were 255,922 shares, including the following: Atchison, 18,-410; Delaware, Lackawanna & Western, 16,900; Louisville & Nashville, 7,200; Missouri Pacific, 7,299; Northwestern, 8,375; Northern Pacific, preferred, 7,360; Oregon Transcontinental, 14,-910; Reading, 24,700; Richmond & West Point, 19,370; St. Paul, 27,020; Union Pacific, 14,200;

Western Union, 3,172. The stock market was again fairly active and generally strong to-day, but there was not the same uniform movement that has characterized the dealings of the previous few days, and some stocks to-night are slightly lower than last evening. The great feature of the day was the buying of the granger stocks, and they again led the list both in point of activity and strength. The covering of the shorts and purchases for the long account by the Western operators, who have so lately been of a bearish turn of mind, still continued, and Burlington still felt the stimulus of the remarkable increase in its earnings for Ma ch, bringing the rest of the stocks of the reads in that section of the country with it. The fact of the probability of a renewal of the negotiations between the Union and Northern Pacifics was not known until after the close of business yesterday, and it stimulated a decidedly bullish feeling upon the streets this morning and made Union Pacific once more one of the leading strong stocks. There were \$2,-750,000 gold engaged for export to-morrow, and while this had some effect to restrict the upward movement it could not stop it, and its i nfluence soon wore away though there was an attempt to get up a slight scarcity of money in the last part of the day upon the strength of it. The "bears," as on yesterday, made a demonstration against the list in the forenoon, and actually succeeded in getting some stocks down a shade below their opening figures by noon, but there was a large amount of Burlington called in which had been loaned, and it commanded a premium for use at one time of 18 per diem, and it steadily rose and reached and it steadily rose and reached a point within 1 per cent. of par before the close. A feature of the day was the heavy foreign buying of St. Paul, and, although that stock moved up only fractionally, it displayed a marked strong tone throughout the day. The activity in Richmond & West Point was a marked feature of the early trading, but, after the nature of the probable action at to-morrow's meeting was known, the stock fell away and steadied down. The opening prices were generally from 18 to 38 per cent. higher than last evening's figures, and these gains were further increased in the early trading by fractional amounts with Lack-awanna, Richmond & West Point and Union Pacific leading. The "bears," however, succeed-ed in bringing the general list down to about the

strong at the best figures. Pullman is alone in showing a material loss to-night being down 1 per cent, but Burlington is up 2½, Oregon Navigation 2¾, Chattanooga 2, Union Pacific 1½ and most of the others fractional amounts. Railroad bonds were not in such urgent demand as yesterday, but the business done aggregated \$1,834,000 and a strong tone was noticeable throughout the day, resulting in advances all through the list. There were very few marked changes among the active bond s, however, and the important gains are generally among the neglected class of bonds. The Burlington Christian Changes and the research to the strong the strong the second to the strong the lington, Quincy & Denver 4s rose 2, to 91; Denver South Park 1st 2<sup>1</sup>2, to 89<sup>1</sup>2; Denver & Rio Grande Western cerificates 2<sup>3</sup>8, to 87<sup>1</sup>2; Gulf, Colorado & Santa Fe seconds 2, to 95. Government bonds have been dull and stead v

level of the opening figures before the end of the

first hour, after which there was a period of stagnation, the only feature being the weakness in Puliman, which declined about 4 per cent. The grangers then came to the front and de-

veloped marked strength, which lasted un-til the close, which was active and

Range in Prices of Leading Articles. CHICAGO, May 3.-A very fair business was transacted in wheat, and the feeling developed was stronger, with part of yesterday's decline recovered. June showed more strength, advanced 1%c and closed about 1%c higher. July opened a shade stronger than yesterday's closing, and gradually improved, advancing 11sc, and closed about 1e higher than yesterday. There was nothing special in shape of outside news to cause the firmness, which was attributed to change in local sentiment and a feeling that, perhaps, prices for the present were low enough. At any rate, there was less pressure to sell, and the speculative offerings were not as heavy as yesterday. With fair buying, partly by shorts and good investment, possibly for quick turns, the market was well sustained. Duluth and Minneapolis are both lower to-day. Advices from Dakota again report no rain. A fair business was transacted in corn and the feeling developed was firmer. The stronger tone was attributed mainly to the active shipping demand and to smaller anticipated receipts. The near futures were relatively firmer and the premium of the more deferred deliveries was narrowed somewhat. The market opened at yesterday's closing prices, was firm and advanced "sc. ruled steady, closing 4, 2c higher than yesterday. Oats were quiet but steady, and prices 4, 2c higher. The amount of new business was not large, and a good part of the trading consisted in

A Dull Centennial Week and a Feeling that Prices Have Reached Bottom Figures. NEW YORK, May 3 .- R. G. Dun & Co.'s weekly review of trade say a: The unprecedented interruption of business by centennial preparations and celebrations has made the week nearly a blank in commercial or financial respects. At New York accumulated orders gave a surface appearance of greater activity on Thursday and Friday, but it is yet too soon to judge which way the tide will turn, and the reports from other cities, though nearly all hopeful in tone, do not indicate the expected improvement. The situation seems better at Milwaukee, satisfactory at Omaha, good at Cleveland as to most branches, but questionable as to iron; rather dull at Kansas City and St. Paul, and less encouraging at the chief centers of the grain, iron, coal and leather trades. Collections are "far from satisfactory" at Milwaukee, and not improved at Detroit, but in other lines there, and at other cities generally, they seem fairly satisfactory, and at New York some dry goods dealers complain that collections are "too good"buyers keep so far within means.

Reports about the wool trade are contradictory. A report that the Treasury may not decide the woolen worsted question for months disturbs importers, who have quantities of goods lecked up because collectors wait for a decision. Otherwise the woolen trade shows a little better move-ment. Silks are quiet, but linens are quite act-ive. A fair business in boots and shoes contin-ues. The paper trade is active. The slow improvement continues in drugs and chemicals. Recent signs of improvement in iron and steel have not been sustained. Here and Boston Southern No. 1 plg has been offered at \$16, and though by new companies to introduce their products, the effect on prices of other iron is felt. At Philadelphia, though sales are hard to make, it is said that there is a very remarkable feeling of confidence, but at Pitts-burg prices are lower, sales of manufactured iron more difficult, and a large sale of steel rails at \$26 is reported here to have been made by a Pittsburg mill. At Philadelphia, structural plate, sheet and boiler iron are in good demand, at Cleveland and here. Coal is dull; the reported increase in stocks for March is 60,000 tons, and a strike at Pittsburg is expected. Copper still waits. Tin is lower abroad, and 20.40e for prompt delivery here, and lead is very much de-

wheat goes lower yet, having sold at 824c. Corn has declined 4c, and oats 1c, since last week. Pork is unchanged, with lard and hogs a shade higher; coffee and sugar are unchanged, but oil an 4sc higher. In general, the course of prices still tends downward, but many products of large importance are now so low that not much further decline is expected, while a quick advance might follow a revival of demand or speculative confidence.

Stockshave been neglected and dull, but a little

Stockshave been neglected and dull, but a little stronger in price with the disposition to believe that the next considerable movement must be upward. The future of the market probably depends much upon the movements of money and the feeling of foreign investors, and for the moment both favor holders, but bankers look upon a considerable outgo of specie as not improba-ble, and the policy of Secretary Windom, as far as it have been made known, does not seem likely to cause large disbursements before July.
The one favorable feature is that merchandise exports are still large. The treasury has taken in during the week \$1,800,000 more than it has The business failures number 214 for the week and 213 for last week, and 246 the week pre-

#### vious. For the corresponding week last year the figures were 234. TRADE IN GENERAL.

MINNEAPOLIS, May 3.—There was a much lighter inquiry for milling wheat during the first portion of the session, though sellers were holding their wheat at yesterday's selling prices. As a result there was less trading, there being but a few scattering sales made up to 12 o'clock. The average quality of offerings showed some improvement over the past few days, and it was noticed that a large majority of the wheat for improvement over the past few days, and it was noticed that a large majority of the wheat for sale was from the Manitoba road. With the exception of one or two local millers, there appeared to be no buying. The receipts for the day were 176 car-loads, and 61 car-loads were shipped out. BOSTON, May 3.-There have been sales this reek of all kinds of wool amounting to 2,137,-200 pounds, of which 1,198,000 are of foreign grades and the rest domestic. It will be seen, therefore, that the business in domestic wool has been very small. But few manufacturers have only small lots. In prices there are no changes to note. A few small invoices of new clip have been received, mostly fat sheep weol. Fine washed fleeces are very quiet at previous prices. Ohio wool is offered at 31@34c for X and XX Ohio wool is offered at 31\( \pi 34c \) for X and XX and Michigan at 29\( \pi 30 \) for X. #### INDIANAPOLIS MARKETS.

Trade Improves Under Genial Influence of a

More Seasonable Temperature. INDIANAPOLIS, May 3. There was a marked improvement in trade today over either of the preceding days of this week. A goodly number of buyers were in and mail orders were very satisfactory. In values there were but few fluctuations. Dry goods carry a steady, firm tone and the bills that are sold show that retail merchants are in a buying mood if the weather is seasonable. Probably there is no market more unfavorably affected by unseasonable weather than that of dry goods. Provision men say that they are seiring more in a jobbing way than in May, 1888, but prices are somewhat unsettled, so they are unable to make even fair margins. The hide market is certainmore active, but prices drag which makes them weak West. produce market there the usual activity. Eggs, on a brisk local demand, are firm. Young chickens are wanted, and these weighing a pound and a half will readily bring \$4 a dozen. Above that weight they are quoted at 14 cents a pound. Hens range from 8 to 812 cents a pound. Fair prices are readily realized on choice butter, but poor stuff will not Asparagus, rhubarb, lettuce and greens are plentiful, the home-grown on the market. The market for both lemons and organges is firm at the revised quotations of Wednesday. The prices of strawberries are unsettled. There is a considerable per cent, of the arrivals inferior in quality, and the grocers take hold cautiously un-less they know the shipper and the character of fruit he puts up. Cucumbers are plentiful at 80 cents a dozen, but the cool weather of late checked the demand. There is a great demand for tomatoes, but arrivals are unusually light for May. In green peas, the best sell readily at \$1.50 per box, and green beans at \$2 to \$3 for

three-peck boxes. GRAIN. The slightly-improved tone to the local market continues. The bidding on corn to-day was quite spirited. Oats ruled steady and are in fair local request. Nothing good can yet be said about wheat. Track bids to-day ruled as follows:

One of the best plans of transplanting is to prepare a small quantity of rich soil to which water has been added until about the consistency of cream, and then dip the roots of the plants carefully into this before putting into the ground.

As soon as a sufficiency of green food can be provided, cut down the grain ration of the hens. By so doing they will keep in better health and lay a larger number of eggs. As a rule too much grain is fed to
